Removal of the Sri Ranganatha Swami Temple at Talahere in the Tiptur Taluk

From

The Deputy Commissioner Tivoli District

Letter No. 378

Dated 20th January 1908

17/80 213rd July 1907.

A Memorial addressed to H. H. the Maharaja by Pateb ^{Gurayannah} ~~Gurayannah~~ of Talahere in Tiptur Taluk complaining that the temple of Sri Ranganatha Swami, a private institution, in Rengadanahalli in the same Taluk was generally submerged in water for some months in the year and praying that it might be shifted elsewhere was forwarded to this office for disposal by the Private Secretary to H. H. the Maharaja.

no 588 D 304 July 1907

The Deputy Commissioner who was requested to report on the above, states

that the temple of the Sri Ranganatha Swami is situated on a low-ground at a distance of about half a mile from the village of Pongadanaballi, near the Savigeballi tank, & that when the channel is full of water, during the floods, the water rushes into the temple causing damage to its stoneworks. To prevent the above damage the petitioner was directed by the Taluk authorities to restore the temple and to construct a dam thereupon. The petitioner's brother Thumappa gave a statement before the Amildar that necessary repairs would be executed by him with the help of his brother and other devotees. The petitioner Sivanna and his brother Thumappa having failed to restore the temple, an endorsement was issued to the ryots of Pongadanaballi directing them to take charge of the temple & have it restored.

The petitioner then gave a statement before the Amildar that with the help of the devotees, he would contribute Rs 500/- if Government would undertake to build a new temple on a high ground. The

Deputy Commr states that considering the postponements of repairs to the temple by the petitioners, made on different occasions, the present prayer appears to have been made to prevent the Pongadanahalli villagers from coming forward to restore the temple, and that the temple does not require any shifting from its present site and that the proposed dam, if constructed, will prevent water from entering into it. It is further reported that the temple is a private institution and that it is but right that its hakdars should restore it. As the hakdars ^{have however} failed to repair the temple, the villagers ^{of Pongadanahalli} pray that they may be permitted to undertake its repairs.

Under the circumstances reported the Dy Commr's recommendation to permit the Pongadanahalli villagers to execute the necessary repairs may

To,

L. Anantasaani Rao Esq B.A.

Secretary to the Government of
His Highness the Maharaja of
Mysore - Mysore Department

Sir,

Adverting to your docket no 588,
dated 30th July 1907, forwarding
for report a memorial addressed
to H. H. the Maharaja by Patel
Giriyanna of Talakere village, Difter
Taluk, complaining that the temple
of Sri Ranganathaswami, a private
institution in Bugudana halli village
in the same Taluk, is generally —
submerged in water for some months
in the year, and praying that it

may be shifted elsewhere, I have the honour to state as follows:—

* The big old temple of Sri Rangaswami, which is under the management of the Petitioner, is situated on a low ground at a distance of about half a mile from the village of Bugadanahalli on the outskirts of a channel that feeds the Sarigehalli Tank. When the channel is full with water during the floods, the water rushes into the temple causing damage to its stone walls. With a view to have the temple thoroughly repaired and also to have a dam put up for preventing the flow of water into the temple from the feeder channel, the Petitioner was being repeatedly directed by the Taluk Authorities to restore the temple and to construct a dam. On 23rd January 1905, the Petitioner's brother, Thimmappa Gowda of Dalakere village gave a statement before the Amildar of the Tipper Taluk to the effect that necessary repairs to the temple are to be executed by him with the help of Rs.

Hakdars to the Temple' as it was finally built by their ancestors, and that if he fails to get their help, he would himself undertake to execute such repairs. Moreover, the Petitioner has in his letter dated 21st September 1893 written to his brother Ghimappa Gowda, stated that he would get all the repairs to the temple done at his own cost, and he has deposed before the Deputy Amildar of Duvvukere on the 13th August 1905^{that} if he fails to restore the temple he would pay Rs 250/- as penalty for the default. But both the Petitioner and his brother have failed to keep to their promise and allowed the temple to get into disrepair. On the 20th October 1906, the Ryots of the Bugadanahalli village petitioned to the Amildar of Diftur praying that the temple might be handed over to them for being restored as the Petitioner, the Manager of the Temple, had failed to put the same in order

and as it is in urgent need of repairs - Thereupon, the Amildar of Diftur issued a notice on the 12th November 1906 to the Petitioner giving him one month's time to attend to the repairs needed to the temple and also, requiring him to appear before him. The Petitioner having failed to do so, an endorsement dated 21st May 1907 was issued by the Amildar of Diftur to the Bugadanahalli ryots directing them to take charge of the temple and have it restored.

From the foregoing facts, it is clear that the Petitioner and the alleged Hakdars of the temple have failed to repair the temple which has fallen into disrepair on account of their neglect, and that they are unwilling to allow the Bugadanahalli ryots to execute repairs fearing they would lose their Hak in the temple. The Petitioner gave another statement on the 16th August 1907 before the Deputy Amildar of the Tumakere Sub District stating that with

the help of the
Contribute Rs 500/-, if Government
would undertake to build a new
temple on a high ground, adding
that they are too poor to subscribe
anything more. Considering the past
sponsored repairs to the temple by
the Petitioner made on former occasions,
the present prayer appears to have
been made to prevent the Bugadana-
halli villagers from coming forward
to restore the temple, and to allow
the temple to sustain further deterio-
ration. It is reported that the temple
does not require any shifting from its
present site and that the proposed dam,
if constructed, will prevent water
from entering into it. Moreover, it
is a private institution and it is but
right that its Hakkdars should restore
it. As they have failed to do it, the
villagers of Bugadanahalli pray
that they may be permitted to under-
take its repairs. The Vernacular
papers relating to the subject are

herewith forwarded.

I have the honor to be,
Sir,

your most obedient servant

K. Anant
